OUR BEGINNING

WHERE IT ALL BEGAN

In 1953, we were born by the patriarch of our business, Theo van Der Kaaij, together with his wife Sophie and their sons, Cor and Dirk, who shared a passion and a love of pure, fresh and delicious tomatoes.

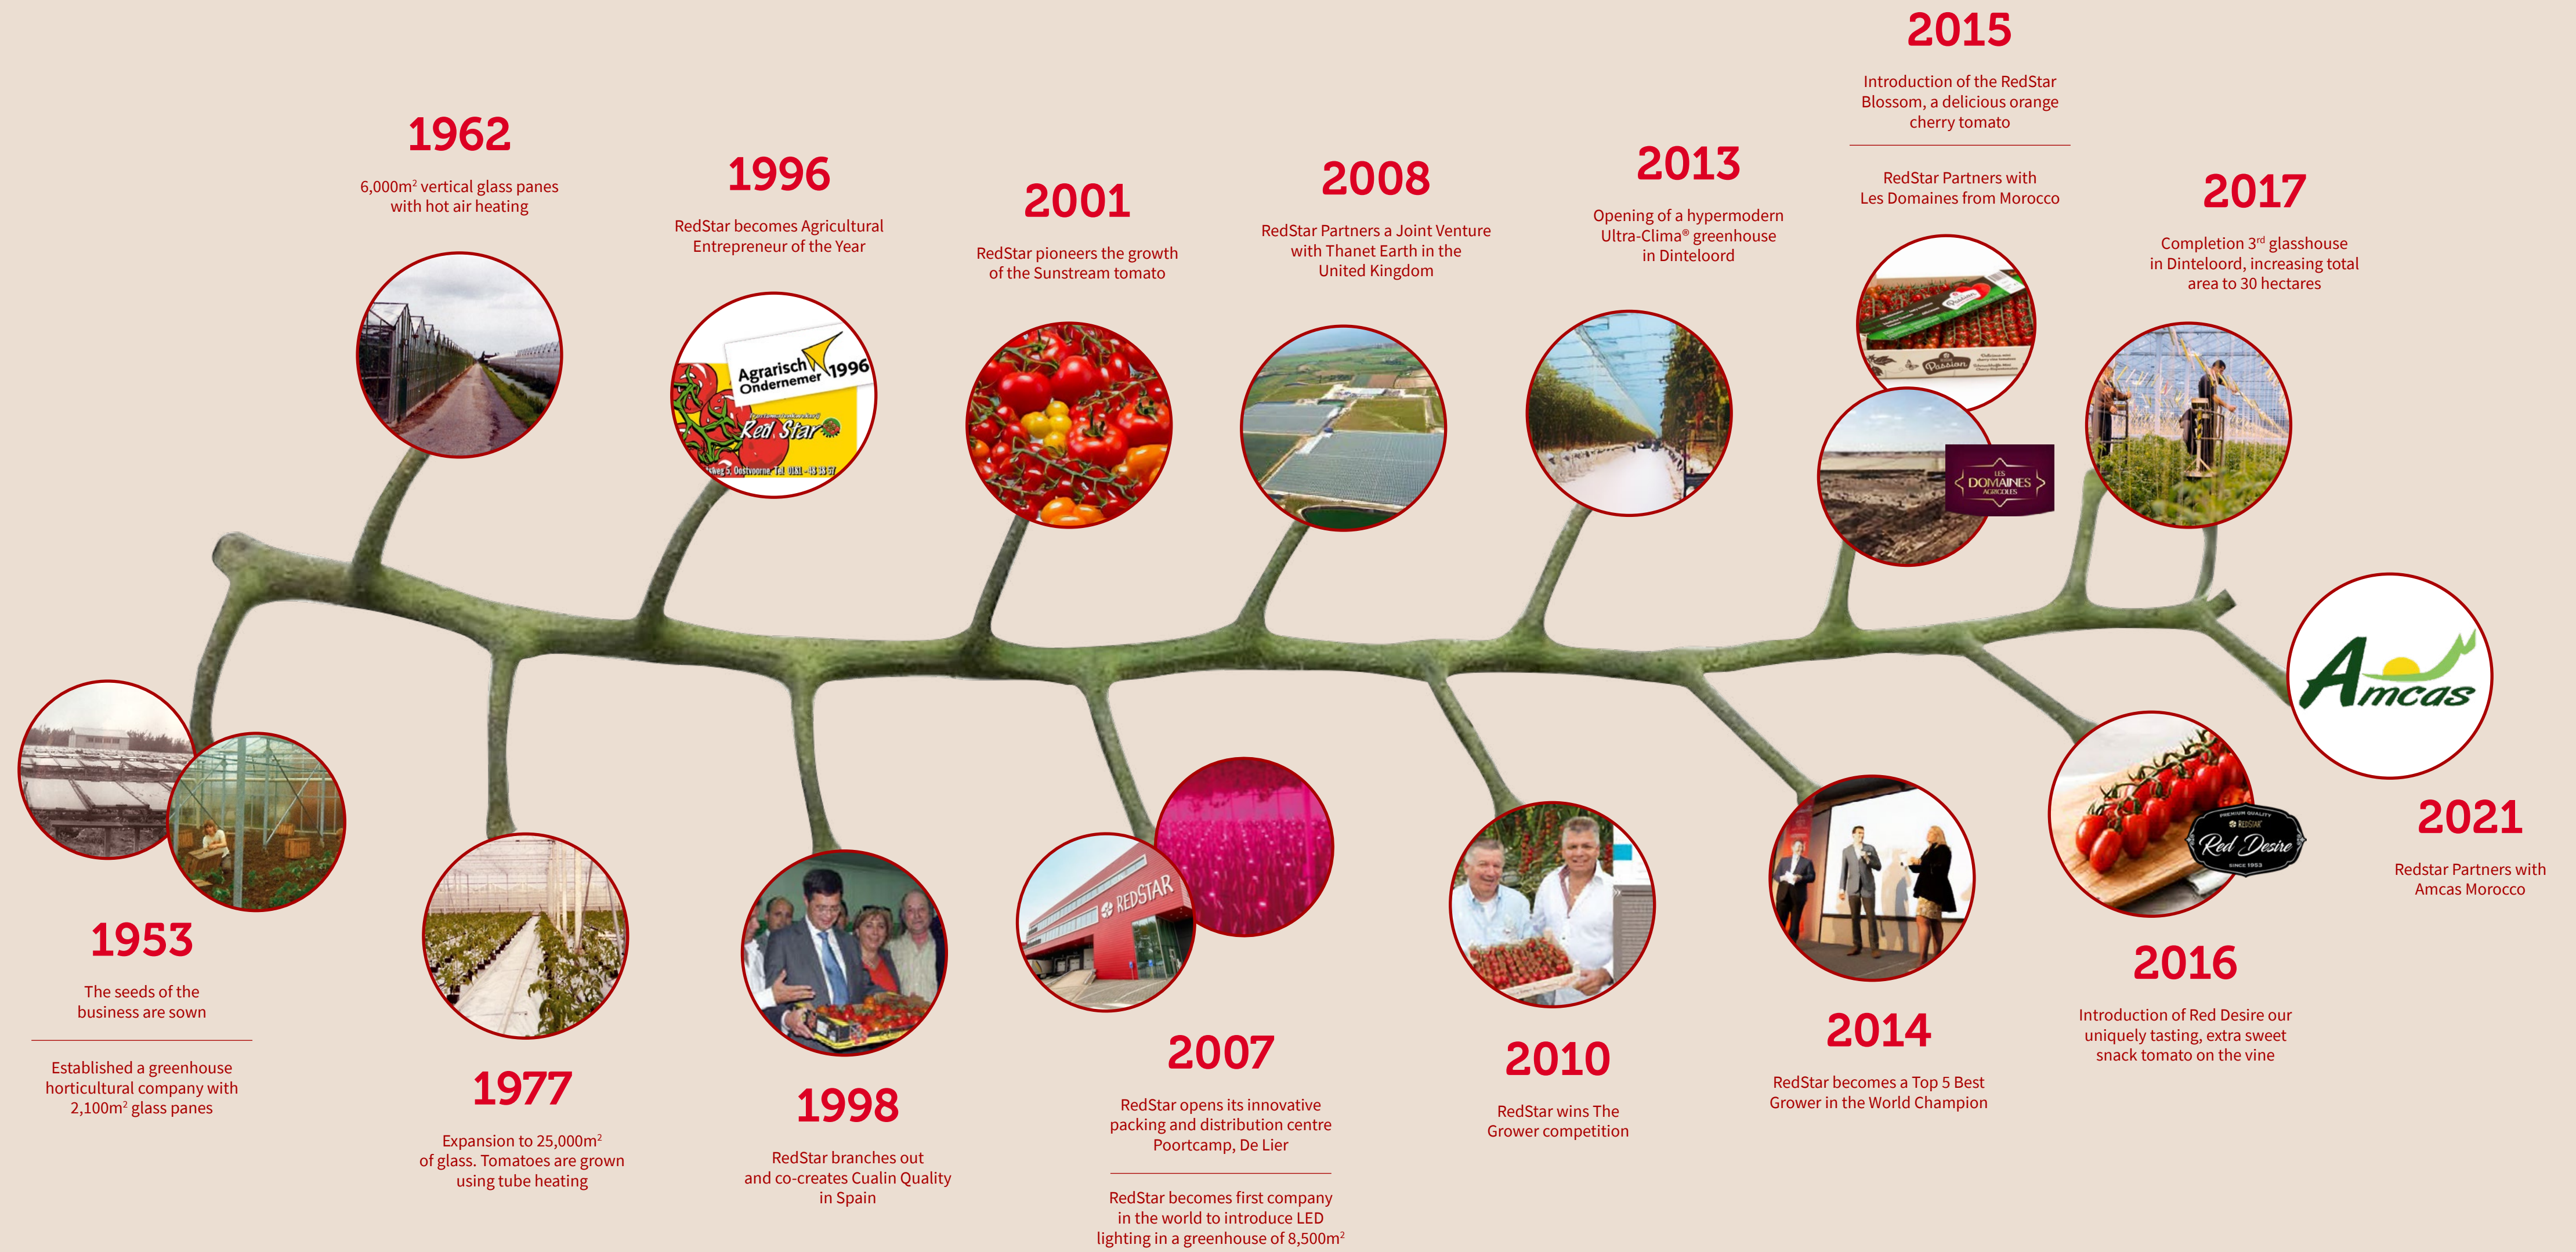

Today as complete specialists and experts in our field we remain committed to the passion of our founders ensuring that RedStar grows the best tomatoes in the business and nothing else.

For almost 70 years, we have been a purpose led business. A business that is driven every day on a quest to realise our full potential and become the best we can be. To leave a legacy that we believe stands up for what is right and what is good for our people, our produce and our planet.
